UTILITY TAP AND CAPITAL CHARGE DEFINITIONS:

TAP FEE – This fee is the actual tap (connection) in to the system, the privilege (fee) to tap the system.

CAPITAL CHARGE FEE – This fee is the “buy in to the system” for new users. Rationale is that residents have funded the improvements to the system over the years by paying property taxes on improved property as well as water/sewer fees whereas a vacant lot has not.

NOTES:

The Tap Fee is not charged to each new lot in new developments such as a subdivision as the developer installed the utilities. The developer pays one Tap Fee to the City for the entire development as he is tapping into the City's system once to extend utilities to the individual sites, but no Cap Fee at this point. The Cap Fee is charged with each new house as part of the building permit process, with no Tap Fee.

Both the Tap and Cap fees are charged for property splits that create vacant lots to build on.

UTILITY TAP FEES

UTILITY TAP FEE – WATER

The following fees are related to the installation of water service line from the City owned water main to the property line (materials/labor/administration).
